

About PRULink Asia Managed Fund (PAMF)

A. Update on investment strategy

To continuously deliver value to your investments and promote sustainable fund management, we will enhance **PRULink Asia Managed Fund (PAMF)** current investment strategy, where the equities currently only invest in Eastspring Investments (Singapore) Limited Asian Equity Fund (EIAEF).

The equity allocation of PAMF will be evenly allocated into two new target funds – Eastspring Investments Asia Pacific ex-Japan Target Return (APTR) and JPMorgan Asia Growth Fund (JPMAG). We believe the enhanced investment strategy of **PRULink Asia Managed Fund (PAMF)** could offer potential better fund performance via stock selection and flexible investment asset allocation in the long run.

This enhancement is in line with the description of **PRULink Asia Managed Fund (PAMF)** provided in Schedule 3 of your Policy.

There is no action required from you.
