

## **About PRULink Managed Fund (PMF)**

### **A. Update on investment strategy**

**PRULink** Managed Fund (PMF) invests into local equities and fixed income securities. To continuously deliver value to your investments and promote sustainable fund management, we will enhance **PRULink** Managed Fund current investment strategy, which currently invests through **PRULink** Equity Fund (PEF) for equity exposure.

We will now add **PRULink** Strategic Fund (PSF) as the additional fund for equity investments. We believe the enhanced investment strategy of **PRULink** Managed Fund could offer potential better fund performance, as PSF's investment strategy focuses primarily on companies which are leaders and emerging leaders.

There is no action required from you.
